-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --
Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

Election/Restrictions

Applicant's election without traverse of Invention 1, species 2, subspecies 5, and claims 1-3, 5-7, 20-26, 28-30, 32, and 37 in the reply filed on 4/19/06 is acknowledged.

However after further consideration claims 5, 6, 20-26, 28-30, and 32 have been withdrawn for being directed toward non-elected species 2 shown in figure 2. These claims recite the structure of the connecting member and extension tube that are shown in figure 2.

Claim Rejections - 35 USC § 102

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) The invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claims 1-3 and 37 rejected under 35 U.S.C. 102(b) as being anticipated by United States Patent 6,235,026 Smith.

Smith discloses the same invention being a surgical snare device comprising tubular sheath (12), a movable shaft (292) extending there through, a swivel (290), a snare loop (comprising elements 22 and 18) coupled to the swivel shown in figures 8 and 9, and a handle (50) with slide portion (52), wherein the device has a first closed position and a second open position.

Claim Rejections - 35 USC § 103

The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

Claim 7 is rejected under 35 U.S.C. 103 as being unpatentable over Smith in view of United States Patent 4,326,530 Fleury Jr.

Smith discloses the invention substantially as claimed being a surgical snare device described above. However, Smith does not disclose that the surgical loop includes a braid.

Kline teaches the use of a surgical loop comprising a braid in the same field of endeavor for the purpose of providing a loop with enhanced fidelity giving the user a better feel for what is happening with the loop.

It would have been obvious to one having ordinary skill in the art at the time the invention was made to combine the braided loop of Kline with the surgical snare device of Smith in order to provide a loop with enhanced fidelity.
